

Lexpert ranks four GR partners in this year's Special Edition for Infrastructure

27 March 2026

Gardiner Roberts LLP is pleased to announce that the *Lexpert Special Edition – Infrastructure* has named partners Rui Fernandes, Gordon Hearn, Kim Stoll and Carole McAfee Wallace as lawyers who facilitate client infrastructure projects in Canada and abroad, providing varied and particular counsel and advocacy needed to get projects done.

Lexpert rankings are compiled from a comprehensive annual survey and extensive research process in which lawyers recommended by their law firm leaders are confidentially rated by their peers. Each year over 13,000 lawyers complete the survey. Any lawyer ranked one year must maintain their status in subsequent surveys to retain their ranking.

Lexpert also produces several themed Special Editions each year featuring firm-and journalist-written articles and information on leading Lexpert -ranked lawyers in specific practice areas or industries. The Lexpert newswire offers the legal profession a detailed look at trends and the most recent deals and cases that law firms and lawyers are acting on and other news in the area of focus for each Special Edition.
